HomeSmartHome ™

Company Profile

Home Smart Home Inc is a Calgary company founded on hard work, industry knowledge and excellent customer service. In a time when home automation is emerging as a mainstream industry, the goal of the company is to be the leading planner, integrator and installer of home automation products and services in Alberta. In order to accomplish this, Home Smart Home Inc is a provider of quality, cost effective products and services that enable any home owner to automate their home. The company's staff are trained individuals who follow proper standards and procedures.

Owners

The owners bring with them many years of experience in fields related to home automation, and have a keen interest in providing the best products and services in the industry. Their complementary skill sets are an excellent fit which ensures the success of Home Smart Home Inc. Ken Breithaupt has worked in the structured wire and system integration industry for over 15 years during which time he has wired yachts, installed and maintained cable and cable internet systems, and automated residential homes. For over 10 years, Rob Breithaupt has worked in the information technology industry as a programmer, system implementer and designer, computer builder, and project manager.
